A sporty **jersey fabric** meets the more glam **mélange**. A distinctive mix, ideal for the trendy urban style.

JERSEY FABRIC: jersey fabric was used in the 1800s by fishermen from the island with the same name in the English Channel. It is a naturally elastic knit fabric. It remained unknown outside that world until Coco Chanel used it for her haute couture creations from 1916 onwards. Today, JERSEY fabrics are particularly suitable for sportswear.

MÉLANGE FABRIC: a fabric made from different coloured yarns to create a nuanced not clearly distinguishable colour.
